

The MIBS Opportunity

MIBS (Managed Internal Broadband Services) and how it can help your library

This E-rate service includes eligible products, such as access points, routers, switches, hubs, and wiring!

Services provided by a solution provider for the operation, management, and monitoring of eligible broadband internal connections components are *eligible for MIBS reimbursement up to your discount percentage.*

CTS isn't just a registered E-Rate vendor—we're E-Rate experts. CTS will manage, monitor, and troubleshoot with customized solutions at a flat rate—ensuring your network runs smoothly so instructional time is safeguarded.

Partner schools/libraries have been awarded \$25 million with customized solutions to date. Through analysis, technical insight, & strategic conversations, we've helped eligible organizations offset their budgets, making sure every penny is spent effectively.

Ongoing services will be delivered via our Network Operations and Service Center and will include:

- Routine firmware updates on applicable devices
- Alerting and troubleshooting
- Configuration changes as required

Strategic Engagement: We stay connected!

With the assignment of a dedicated Client Manager that will get to know you, your organization, and future plans . . .

We will conduct Organizational Technology Reviews (3 times a year) that cover IT Budgets, ERATE spending, and product selections.

Pricing and Eligible Devices

Firewalls, Routers, Switches, Wireless LAN Controllers (appliance based) are all considered CORE devices. These are charged at \$55 per device per month.

Access Points, Uninterruptible Power Supply (UPS) Units are considered BASIC devices. These are charged at \$11 per device per month.
