

CTS Physical Security Solutions

CTS is fully committed to keeping your students and staff safe. The CTS menu/suite of robust security solutions effectively contributes to the safety of your campus. We will review potential vulnerabilities and recommend options in line with or exceeding today's best practices. All solutions are user-friendly, including Video Surveillance, Access Control, Communication and Alerting to fortify school security and provide you peace of mind.

NETWORKING & CONNECTIVITY

Support your security infrastructure — from IP enabled cameras to access control - We will fully integrate your new systems with your existing infrastructure to create one seamless environment.

VIDEO SURVEILLANCE

Monitoring & recording solutions ensure you always have a view of what's happening on and around your campus.

ACCESS CONTROL & VISITOR MGMT

Track the movement of people in your environment. Make sure the right people (and only the right people) have access to the right areas.

Support

Access to our experienced support team and our network operations center

CTS enables, powers, and secures your school's powerful mission.
